1. INTRODUCTION

L.F. Investment Limited (hereinafter, the “Company”) is an Investment Firm incorporated and registered under the laws of the Republic of Cyprus. The Company is authorised and regulated by the Cyprus Securities and Exchange Commission (hereafter the “CySEC”) under the license number 271/15.

This is the **Execution Quality Summary Statement** (hereinafter, the “Statement”) of the Company, with the application of the Investment Services and Activities and Regulated Markets Law of 2017, pursuant to the requirement of disclosure of such information under Regulation EU 2017/576 supplementing MiFID II. MiFID II is the European Parliament and Council’s Directive 2014/65/EC.

The Company is required to inform all its Retail and Professional Clients about all sufficient steps taken to obtain the best possible result for its Clients (“best execution”) either when executing Client orders or receiving orders for execution in relation to financial instruments. This Statement is a summary of those sufficient steps taken by the Company in addition to those referred in the Order Execution policy of the Company, as well as analysis and conclusions derived by the monitoring undertaken with respect to Clients orders’ execution on the execution venues utilized by the Company within 2020.

2. APPLICATION

This Policy applies to Retail and Professional Clients of the Company.

In the case of Retail Clients, in applying the best execution in the normal course of business, we determine the best possible result in terms of total consideration. Total consideration is the price of the financial instrument concerned and the costs payable by the retail Client as a result of execution. These costs include all expenses incurred that are directly related to the execution of the order (such as execution venue fees, clearing and settlement fees and any other fees paid to third parties involved in the execution of the order). These costs do not include our own commission, spread or margin. We may take the other execution factors into account where they are instrumental in delivering the best possible result (in terms of total consideration) for the retail Client.

In the case of Professional Clients, in applying the overarching principle in the normal course of business, price merits a high relative importance. In considering price, we also consider the steps that we may reasonably take to minimize the market impact of execution. The application of the best execution is subject to prevailing market conditions and our understanding of the professional Client’s preferences. Therefore, there may be circumstances in which we conclude that other execution factors are as important, or more important, than price in applying the best execution.

The application of the best execution is neither a guarantee that the best price will be obtained nor a guarantee that the transaction will be executed in full.
