

Purpose

This document provides you with key information about this investment product. It is not marketing material. The information is required by law to help you understand the nature, risks, costs, potential gains and losses of this product and to help you compare it with other products.

Product

iShares Core MSCI EM IMI UCITS ETF (the "Fund"), **USD Accu** (the "Share Class"), ISIN: **IE00BKM4GZ66**, is authorised in Ireland and manufactured by BlackRock Asset Management Ireland Limited (the "Manager") which is part of the BlackRock, Inc group.

The Manager is authorised in Ireland and regulated by the Central Bank of Ireland (the "CBI") and the CBI is responsible for supervising the Manager in relation to this Key Information Document.

More information is available at www.blackrock.com or by calling **+353 1 612 3394**. This document is dated 01 January 2023.

What is this product?

Type: The Fund is a sub-fund of iShares plc, an umbrella company incorporated in Ireland, authorised by the Central Bank of Ireland as a Undertaking for Collective Investment in Transferable Securities ("UCITS").

Term: The Fund does not have a fixed term of existence or maturity period but in certain circumstances, as described in the Fund prospectus, the Fund may be unilaterally terminated following written notice to unitholders subject to compliance with the Fund prospectus and applicable regulation.

Objectives

- The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the MSCI Emerging Markets Investable Market Index (IMI), the Fund's benchmark index (Index).
- The Share Class, via the Fund is passively managed and aims to invest so far as possible and practicable in the equity securities (e.g. shares) that make up the Index.
- The Index measures the performance of large, mid and small-cap sectors (i.e. companies with large, mid and small market capitalisation) within the equity markets in emerging markets which comply with MSCI's size, liquidity and free float criteria. Companies are included in the Index based on the proportion of their shares in issue that are available for purchase by international investors. Securities that are liquid means that they can be easily bought or sold in the market in normal market conditions.
- The Fund uses optimising techniques to achieve a similar return to the Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class. In order to gain exposure to certain securities in emerging markets that make up the Index, the Fund may invest in American Depository Receipts (ADRs) and Global Depository Receipts (GDRs). ADRs and GDRs are investments issued by financial institutions which give exposure to underlying equity securities.
- The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- The price of equity securities fluctuates daily and may be influenced by factors affecting the performance of the individual companies issuing the equities, as well as by daily stock market movements, and broader economic and political developments which in turn may affect the value of your investment.
- The return on your investment in the Fund is directly related to the value of the underlying assets of the Fund, less costs (see "What are the costs?" below).
- The relationship between the return on your investment, how it is impacted and the period for which you hold your investment is considered below (see "How long should I hold it and can I take my money out early?").
- The depositary of the Fund is State Street Custodial Services (Ireland) Limited.
- Further information about the Fund can be obtained from the latest annual report and half-yearly reports of the iShares plc. These documents are available free of charge in English and certain other languages. These can be found, along with other (practical) information, including prices of units, on the iShares website at: www.ishares.com or by calling +44 (0)845 357 7000 or from your broker.
- Your shares will be accumulating shares (i.e. income will be included in their value).
- Your shares will be denominated in US Dollar, the Fund's base currency.
- The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

Intended retail investor: The Fund is intended for retail investors with the ability to bear losses up to the amount invested in the Fund (see "How long should I hold it and can I take my money out early?").

Insurance benefits: The Fund does not offer any insurance benefits.

What are the risks and what could I get in return?

Risk Indicator

Lower risk

Higher risk

1	2	3	4	5	6	7
 The risk indicator assumes you keep the product for 5 years. The actual risk can vary significantly if you cash in at an early stage and you may get back less.						

- The summary risk indicator is a guide to the level of risk of this product compared to other products. It shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- We have classified this product as 4 out of 7, which is a medium risk class. This classification rates the potential losses from future performance at a medium level, and poor market conditions could affect the value of your investment. This classification is not guaranteed and may change over time and may not be a reliable indication of the future risk profile of the Fund. The lowest category does not mean risk free.
- **Be aware of currency risk.** If you receive payments in a currency that is different to the product's base currency, the final return you will get depends on the exchange rate between the two currencies. This risk is not considered in the indicator shown above.
- Please refer to the product's Prospectus or AIFMD Disclosure for details of other materially relevant risks that may apply to this product.
- This product does not include any protection from future market performance so you could lose some or all of your investment.
- If the product is not able to pay you what is owed, you could lose your entire investment.

Performance Scenarios

The figures shown include all the costs of the product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. What you will get from this product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted. The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the product, which may include input from benchmark(s) / proxy, over the last ten years. Markets could develop very differently in the future.

Recommended holding period : 5 years		Example Investment : USD 10,000	
Scenarios		If you exit after 1 year	If you exit after 5 years
Minimum	There is no minimum guaranteed return. You could lose some or all of your investment.		
Stress*	What you might get back after costs	7,350 USD	3,120 USD
	Average return each year	-26.5%	-20.8%
Unfavourable**	What you might get back after costs	7,700 USD	8,950 USD
	Average return each year	-23.0%	-2.2%
Moderate**	What you might get back after costs	10,370 USD	12,550 USD
	Average return each year	3.7%	4.6%
Favourable**	What you might get back after costs	16,110 USD	19,850 USD
	Average return each year	61.1%	14.7%

* The stress scenario shows what you might get back in extreme market circumstances.

** This type of scenario occurred for an investment in the product with input from benchmark(s) / proxy during 2012-2014

What happens if BlackRock Asset Management Ireland Limited is unable to pay out?

The assets of the Fund are held in safekeeping by its depositary, State Street Custodial Services (Ireland) Limited (the "Depositary"). In the event of the insolvency of the Manager, the Fund's assets in the safekeeping of the Depositary will not be affected. However, in the event of the Depositary's insolvency, or someone acting on its behalf, the Fund may suffer a financial loss. However, this risk is mitigated to a certain extent by the fact the Depositary is required by law and regulation to segregate its own assets from the assets of the Fund. The Depositary will also be liable to the Fund and the investors for any loss arising from, among other things, its negligence, fraud or intentional failure properly to fulfil its obligations (subject to certain limitations). As a shareholder of the Fund you would not be able to make a claim to the UK Financial Services Compensation Scheme or any other scheme about the Fund in the event that the Fund is unable to pay out.

What are the costs?

Costs over time: The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0 % annual return).
- For the other holding periods we have assumed the product performs as shown in the moderate scenario.
- USD 10,000 is invested.

Scenarios	If you exit after 1 year	If you exit after 5 years
Total costs	28 USD	177 USD
Annual cost Impact (*)	0.3%	0.3%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 4.9 % before costs and 4.6 % after costs.

We may share part of the costs with the person selling you the product to cover the services they provide to you. They will inform you of the amount.

Composition of Costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	Not applicable to secondary market investors. Investors dealing via stock exchanges will pay fees charged by stock brokers. Such charges can be obtained on exchanges where the shares are listed and traded, or from stock brokers. Authorised participants dealing directly with the Fund or the Management Company will pay related transaction costs.	-
Exit costs	Not applicable to secondary market investors. Investors dealing via stock exchanges will pay fees charged by stock brokers. Such charges can be obtained on exchanges where the shares are listed and traded, or from stock brokers. Authorised participants dealing directly with the Fund or the Management Company will pay related transaction costs.	-

Ongoing costs taken each year

Management fees and other administrative or operating costs	0.2% of the value of your investment per year. This is based on a combination of estimated and actual costs data over the last year. Any underlying product costs are included here with the exception of transaction costs which would be included below under 'Transaction costs'.	18 USD
Transaction costs	0.1% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	10 USD

Incidental costs taken under specific conditions

Performance fees	There is no performance fee for this product.	-
------------------	---	---

How long should I hold it and can I take money out early? Recommended Holding Period: 5 years

The recommended holding period (RHP) has been calculated in line with the investment strategy of the Fund and the time frame in which it is expected that it will be possible to achieve the investment objective of the Fund. Any investment should be considered against your specific investment needs and appetite for risk. BlackRock has not considered the suitability or appropriateness of this investment for your personal circumstances. If you are in any doubt about the suitability of the Fund to your needs you should seek appropriate professional advice. Details of dealing frequency can be found under "What is this product?". You may receive less than expected if you cash in earlier than the RHP. The RHP is an estimate and must not be taken as a guarantee or an indication of future performance, return or risk levels. Please see the "What are the costs?" section for details of any exit fees.

How can I complain?

If you are not entirely satisfied with any aspect of the service you have received and you wish to complain, details of our complaints handling process are available at www.blackrock.com/uk/individual/about-blackrock/contact-us. Additionally, you can also write to the Investor Services Team, at BlackRock's UK Registered Office, 12 Throgmorton Avenue, London, EC2N 2DL or e-mail them at enquiry@ukclientservices.blackrock.com.

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

iShares Ageing Population UCITS ETF

A sub-fund of iShares IV plc

USD (Acc) Share Class

ISIN: IE00BYZK4669

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the STOXX Global Ageing Population Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed and invests in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index reflects the performance of a subset of equity securities within the STOXX Global Total Market Index (TMI) ("Parent Index") which derive significant revenues from the growing needs of the world's ageing population (defined as people aged 60 years or above). Companies included in the Index must generate at least 50% (45% for existing companies in the Index) of their annual revenues from sectors associated with the ageing population theme, which fall under categories such as biopharmaceuticals, life and health insurance, hospital facilities and travel. In addition, the Index aims to have a minimum number of 80 constituents at each Index rebalance however if the application of the revenue filter results in there being fewer than 80 constituents in the Index, it is progressively lowered in accordance with the index provider's methodology, until the number of constituents is equal to or greater than 80. Companies in the Index must also meet the index provider's criteria for market capitalization and trading volume and be domiciled in an eligible country which is also determined by the index provider.
- ▶ The Index excludes companies from the Parent Index which are identified by the index provider as being involved in certain business lines/activities, as outlined in the Index description of the Fund in the Fund's Prospectus.
- ▶ The Fund's investment in securities that make up the Index will, at the time of purchase, comply with the credit or ESG requirements of the Index. Where securities no longer meet such requirements, the Fund may continue to hold them until they cease to form part of the Index and it is practicable to sell them.
- ▶ The Fund will take into account such ESG criteria only when selecting the securities to be held directly by the Fund. The Fund may obtain indirect exposure (for example, through financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities considered not to satisfy these ESG criteria. The Index may include small, mid and/or large capitalisation constituents of the Parent Index from both developed and emerging market countries globally. Each constituent of the Index is adjusted equally weighted at each Index rebalance.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of FDIs, which may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None*
Exit Charge	None*
This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.	
Charges taken from the Share Class over each year	
Ongoing Charges	0.40%**
Charges taken from the Share Class under certain conditions	
Performance Fee	None

Past Performance

Past performance is not a guide to future performance.

The chart shows the Share Class's annual performance in USD for each full calendar year over the period displayed in the chart. It is expressed as a percentage change of the Share Class's net asset value at each year-end. The Fund was launched in 2016. The Share Class was launched in 2016. Performance is shown after deduction of ongoing charges. Any entry/exit charges are excluded from the calculation.

† Benchmark:STOXX Global Ageing Population Index (USD)

Historic performance to 31 December 2022

Practical Information

- ▶ The depositary of the Fund is State Street Custodial Services (Ireland) Limited.
- ▶ Further information about the Fund and the Share Class can be obtained from the latest annual report and half-yearly reports of iShares IV plc. These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as details of the key underlying investments of the Share Class and share prices, on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser.
- ▶ Investors should note that the tax legislation that applies to the Fund and Share Class may have an impact on the personal tax position of your investment.
- ▶ The Fund is a sub-fund of iShares IV plc, an umbrella structure comprising different sub-funds. The Fund has one or more share classes. This document is specific to the Fund and Share Class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ iShares IV plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>.
- ▶ Under Irish law, iShares IV plc has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within iShares IV plc). In addition, the Fund's assets are held separately from the assets of other sub-funds. Assets and liabilities specific to a share class would be attributable to only that share class, however there is no segregation of liabilities between share classes under Irish law.
- ▶ Switching of shares between the Fund and other sub-funds within iShares IV plc is not available to investors. Only Authorised Participants dealing directly with the Fund may switch shares between share classes of the Fund subject to meeting certain conditions in the Fund's prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.

KEY INVESTOR INFORMATION

**iShares Edge MSCI World Quality Factor
UCITS ETF**

A sub-fund of iShares IV plc

USD (Acc) Share Class

ISIN: IE00BP3QZ601

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund’s assets, which reflects the return of the MSCI World Sector Neutral Quality Index, the Fund’s benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed and invests in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index aims to reflect the performance characteristics of a subset of equity securities within the MSCI World Index (Parent Index) which are selected for their high quality. The constituents of the Index are selected from the Parent Index based on three main equally weighted indicators of whether a company is demonstrating high quality characteristics: high percentage of company earnings allocated to shareholders; low levels of debt; and low variability of year on year company earnings. The Index incorporates constraints on the exposure to specific economic sectors to limit significant deviations from the Parent Index.
- ▶ The Parent Index is designed to provide representation of the equity markets in developed countries. Companies are included in the Parent Index based on the proportion of their shares in issue that are available for purchase by international investors.
- ▶ The Fund uses optimising techniques to achieve a similar return to the Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- Index Methodology Risk: Although the benchmark index aims to seek exposure to securities with high quality characteristics from within the Parent Index, there is no guarantee that this objective will be achieved.
- Factor Focus Risk: Indices with a factor focus are less diversified than their parent index because they have predominant exposure to a single factor rather than the multiple factor exposure of most indices. Therefore they will be more exposed to factor related market movements. Investors should consider this Fund as part of a broader investment strategy.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depository and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the Bloomberg Barclays Euro Corporate Bond Index, the Fund's benchmark index (Index).
 - ▶ The Share Class, via the Fund is passively managed and aims to invest so far as possible and practicable in the fixed income (FI) securities (such as bonds) that make up the Index and comply with its credit rating requirements. If the credit ratings of the FI securities are downgraded, the Fund may continue to hold these until they cease to form part of the Index and it is practicable to sell the position.
 - ▶ The Index measures the performance of Euro-denominated, investment grade FI securities which pay income according to a fixed rate of interest and are issued by industrial, utility or financial issuers. The FI securities will, at the time of inclusion in the Index, be investment grade (i.e. meet a specified level of creditworthiness). Only bonds with a minimum remaining time to maturity of one year and a minimum amount outstanding of €300 million are included in the Benchmark Index. The Index is market capitalisation weighted. Market capitalisation is the market value of the outstanding bond issuance.
 - ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These may include the strategic selection of certain securities that make up the Index or other FI securities which provide similar performance to certain constituent securities. These may also include the use of financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets). FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
 - ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
 - ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
 - ▶ Your shares will be distributing shares (i.e. income will be paid on the shares semi-annually).
 - ▶ Your shares will be denominated in Euro, the Fund's base currency.
 - ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.
- For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated three due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- Credit risk, changes to interest rates and/or issuer defaults will have a significant impact on the performance of fixed income securities. Potential or actual credit rating downgrades may increase the level of risk.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Credit Risk: The issuer of a financial asset held within the Fund may not pay income or repay capital to the Fund when due. If a financial institution is unable to meet its financial obligations, its financial assets may be subject to a write down in value or converted (i.e. "bail-in") by relevant authorities to rescue the institution.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depository and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.

One-off charges taken before or after you invest	
Entry Charge	None*
Exit Charge	None*
This is the maximum that might be taken out of your money before it is invested or before proceeds of your investments are paid out.	
Charges taken from the Share Class over each year

Practical Information

- ▶ The depository of the Fund is State Street Custodial Services (Ireland) Limited.
- ▶ Further information about the Fund and the Share Class can be obtained from the latest annual report and half-yearly reports of iShares III plc. These documents are available free of charge in English and certain other languages. These can be found, along with other information, such as details of the key underlying investments of the Share Class and share prices, on the iShares website at www.ishares.com or by calling +44 (0)845 357 7000 or from your broker or financial adviser.
- ▶ Investors should note that the tax legislation that applies to the Fund and Share Class may have an impact on the personal tax position of your investment.
- ▶ The Fund is a sub-fund of iShares III plc, an umbrella structure comprising different sub-funds. The Fund has one or more share classes. This document is specific to the Fund and Share Class stated at the beginning of this document. However, the prospectus, annual and half-yearly reports are prepared for the umbrella.
- ▶ iShares III plc may be held liable solely on the basis of any statement contained in this document that is misleading, inaccurate or inconsistent with the relevant parts of the Fund's prospectus.
- ▶ The indicative intra-day net asset value of the Share Class is available at <http://deutsche-boerse.com> and/or <http://www.reuters.com>.
- ▶ Under Irish law, iShares III plc has segregated liability between its sub-funds (i.e. the Fund's assets will not be used to discharge the liabilities of other sub-funds within iShares III plc). In addition, the Fund's assets are held separately from the assets of other sub-funds. Assets and liabilities specific to a share class would be attributable to only that share class, however there is no segregation of liabilities between share classes under Irish law.
- ▶ Switching of shares between the Fund and other sub-funds within iShares III plc is not available to investors. Only Authorised Participants dealing directly with the Fund may switch shares between share classes of the Fund subject to meeting certain conditions in the Fund's prospectus.
- ▶ The Remuneration Policy of the Management Company, which describes how remuneration and benefits are determined and awarded, and the associated governance arrangements, is available at www.blackrock.com/Remunerationpolicy or on request from the registered office of the Management Company.

KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

iShares Core S&P 500 UCITS ETF

A sub-fund of iShares VII plc

USD (Acc) Share Class

ISIN: IE00B5BMR087

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the S&P 500 Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed, and aims to invest so far as possible and practicable in the equity securities (e.g. shares) that make up the Index.
- ▶ The Index measures the performance of the 500 largest companies (i.e. companies with large market capitalisation) within the United States market, according to size, liquidity and free float criteria. Companies are included in the Index based on a free float market capitalisation weighted basis. Free float means that only shares available to international investors rather than all of a company's issued shares are used in calculating the Index. Free float - adjusted market capitalisation is the share price of a company multiplied by the number of shares available to international investors. Securities that are liquid means that they can be easily bought or sold in the market in normal market conditions.
- ▶ The Fund intends to replicate the Index by holding the equity securities which make up the Index, in similar proportions to it.
- ▶ The Fund may also engage in short-term secured lending of its investments to certain eligible third parties to generate additional income to off-set the costs of the Fund.
- ▶ The investment manager may use financial derivative instruments (FDIs) (i.e. investments the prices of which are based on one or more underlying assets) to help achieve the Fund's investment objectives. FDIs may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.

- The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

iShares Healthcare Innovation UCITS ETF

A sub-fund of iShares IV plc

USD (Acc) Share Class

ISIN: IE00BYZK4776

Exchange Traded Fund (ETF)

Manager: BlackRock Asset Management Ireland Limited

Objectives and Investment Policy

- ▶ The Share Class is a share class of a Fund which aims to achieve a return on your investment, through a combination of capital growth and income on the Fund's assets, which reflects the return of the STOXX Global Breakthrough Healthcare Index, the Fund's benchmark index (Index).
- ▶ The Share Class, via the Fund is passively managed, and aims to invest in equity securities (e.g. shares) that, so far as possible and practicable, make up the Index.
- ▶ The Index reflects the performance of a subset of global equity securities within the STOXX Global Total Market Index ("Parent Index") which derive significant revenues from healthcare innovation. Companies included in the Index must generate at least 50% (45% for existing companies included in the Index) of their annual revenues from sectors associated with the healthcare innovation theme, such as generic drugs, immunotherapy (e.g. stem cell treatment) and healthcare IT. In addition, the Index aims to have a minimum number of 80 constituents at each Index rebalance however if the application of the revenue filter results in there being fewer than 80 constituents in the Index, it is progressively lowered in accordance with the index provider's methodology, until the number of constituents is equal to or greater than 80. Companies in the Index must also meet the index provider's criteria for market capitalization and trading volume and be domiciled in an eligible country which is also determined by the index provider.
- ▶ The Index excludes companies from the Parent Index which are identified by the index provider as being involved in certain business lines/activities, as outlined in the Index description of the Fund in the Fund's Prospectus.
- ▶ The Fund's investment in securities that make up the Index will, at the time of purchase, comply with the credit or ESG requirements of the Index. Where securities no longer meet such requirements, the Fund may continue to hold them until they cease to form part of the Index and it is practicable to sell them.
- ▶ The Fund will take into account such ESG criteria only when selecting the securities to be held directly by the Fund. The Fund may obtain indirect exposure (for example, through financial derivative instruments ("FDIs") (i.e. investments the prices of which are based on one or more underlying assets) and units in collective investment schemes) to securities considered not to satisfy these ESG criteria. The Index may include small, mid and/or large capitalisation constituents of the Parent Index from both developed and emerging market countries globally. Each constituent of the Index is adjusted equally weighted at each Index rebalance.
- ▶ The Fund uses optimising techniques to achieve a similar return to its Index. These techniques may include the strategic selection of certain securities that make up the Index or other securities which provide similar performance to certain constituent securities. These may also include the use of FDIs, which may be used for direct investment purposes. The use of FDIs is expected to be limited for this Share Class.
- ▶ Recommendation: This Fund is suitable for medium to long term investment, though the Fund may also be suitable for shorter term exposure to the Index.
- ▶ Your shares will be accumulating shares (i.e. income will be included in their value).
- ▶ Your shares will be denominated in US Dollar, the Fund's base currency.
- ▶ The shares are listed on one or more stock exchanges and may be traded in currencies other than their base currency. The performance of your shares may be affected by this currency difference. In normal circumstances, only authorised participants (e.g. select financial institutions) may deal in shares (or interests in shares) directly with the Fund. Other investors can deal in shares (or interests in shares) daily through an intermediary on stock exchange (s) on which the shares are traded.

For more information on the Fund, Share Class, risks and charges, please see the Fund's prospectus, available on the product pages at www.blackrock.com

Risk and Reward Profile

- ▶ This indicator is based on historical data and may not be a reliable indication of the future risk profile of this Share Class.
- ▶ The risk category shown is not guaranteed and may change over time.
- ▶ The lowest category does not mean risk free.
- ▶ The Share Class is rated six due to the nature of its investments which include the risks listed below. These factors may impact the value of the Share Class or expose the Share Class to losses.
 - Shares in smaller companies typically trade in less volume and experience greater price variations than larger companies.
 - Emerging markets are generally more sensitive to economic and political conditions than developed markets. Other factors include greater 'Liquidity Risk', restrictions on investment or transfer of assets, failed/delayed delivery of securities or payments to the Fund and sustainability-related risks.
 - Investment risk is concentrated in specific sectors, countries, currencies or companies. This means the Fund is more sensitive to any localised economic, market, political, sustainability-related or regulatory events.
 - The value of equities and equity-related securities can be affected by daily stock market movements. Other influential factors include political, economic news, company earnings and significant corporate events.
- ▶ Particular risks not adequately captured by the risk indicator include:
 - Counterparty Risk: The insolvency of any institutions providing services such as safekeeping of assets or acting as counterparty to derivatives or other instruments, may expose the Share Class to financial loss.
 - Liquidity Risk: Lower liquidity means there are insufficient buyers or sellers to allow the Fund to sell or buy investments readily.

Charges

The charges are used to pay the costs of running the Share Class, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

*Not applicable to secondary market investors. Investors dealing on a stock exchange will pay fees charged by their stock brokers. Such charges are publicly available on exchanges on which the shares are listed and traded, or can be obtained from stock brokers.

*Authorised participants dealing directly with the Fund will pay related transaction costs including, on redemptions, any applicable capital gains tax (CGT) and other taxes on underlying securities.

The ongoing charges figure is based on the fixed annualised fee charged to the Share Class in accordance with the Fund's prospectus. This figure excludes portfolio trade related costs, except costs paid to the depositary and any entry/exit charge paid to an underlying collective investment scheme (if any).

** To the extent the Fund undertakes securities lending to reduce costs, the Fund will receive 62.5% of the associated revenue generated and the remaining 37.5% will be received by BlackRock as the securities lending agent. As securities lending revenue sharing does not increase the costs of running the Fund, this has been excluded from the ongoing charges.
